1 - General information

Field(s) marked * are mandatory to fill.

Topic	DIGITAL-2025-BESTUSE-TECH-09-WALLET	Type of Action	DIGITAL-SIMPLE
Call	DIGITAL-2025-BESTUSE-TECH-09	Type of Model Grant Agreement	DIGITAL-AG
Acronym	EUDIW PACT		
Proposal title	EUDIW – PACT (European Digital Identity – Partnership for Alignment, Certification & Testing)		
	Note that for technical reasons, the following characters are not accepted in the Proposal Title and will be removed: < > " &		
Duration in months	24		
Free keywords	EUDIW, digital identity, cyber certification, functional certification, conformity assessment, interoperability, trust framework, sandbox, EU governance, wallet issuance, EUDIW certification,		

Abstract *

The EUDIW PACT project seeks to accelerate the development of harmonised and trustworthy certification frameworks for the European Digital Identity (EUDIW) ecosystem. As Member States move toward deploying EUDIW solutions, establishing clear, consistent, and actionable certification schemes is critical to ensure security, interoperability, and regulatory compliance across Europe.

Central to the project is the collaborative work of conformity assessment bodies, national certification authorities, and EUDIW providers to design, test, and refine core components of cyber and functional certification. This includes clarifying requirements, aligning interpretations, developing assessment methodologies, and identifying the foundations for national certification schemes.

EUDIW PACT provides a shared sandbox environment to enable experimentation and evidence-based refinement. Partners test evaluation processes, explore practical scenarios, and validate requirement applicability, revealing gaps, addressing ambiguities, and converging on feasible certification approaches.

Beyond technical development, the project strengthens the broader ecosystem by supporting Member States in formulating consistent certification strategies and contributing to European and international standardization efforts. By consolidating insights from technical work, stakeholder collaboration, and practical experimentation, EUDIW Pact produces actionable guidance, tools, and recommendations.

Ultimately, the project aims to deliver a robust, coherent, and trusted certification framework that empowers Member States and market actors to deploy EUDIW solutions with confidence.

Remaining characters 333

Has this proposal (or a very similar one) been submitted in the past 2 years in response to a call for proposals under any EU programme, including the current call?	<input type="radio"/> Yes <input checked="" type="radio"/> No
Please give the proposal reference or contract number.	
Previously submitted proposals should be with either 6 or 9 digits.	

Application forms

Proposal ID **101318339**

Acronym **EU DIW PACT**

Declarations

Field(s) marked * are mandatory to fill.

1) We declare to have the explicit consent of all applicants on their participation and on the content of this proposal. * ☒

2) We confirm that the information contained in this proposal is correct and complete and that none of the project activities have started before the proposal was submitted (unless explicitly authorised in the call conditions). * ☒

3) We declare:
- to be fully compliant with the eligibility criteria set out in the call
- not to be subject to any exclusion grounds under the [EU Financial Regulation 2018/1046](#)
- to have the financial and operational capacity to carry out the proposed project. * ☒

4) We acknowledge that all communication will be made through the Funding & Tenders Portal electronic exchange system and that access and use of this system is subject to the [Funding & Tenders Portal Terms and Conditions](#). * ☒

5) We have read, understood and accepted the [Funding & Tenders Portal Terms & Conditions](#) and [Privacy Statement](#) that set out the conditions of use of the Portal and the scope, purposes, retention periods, etc. for the processing of personal data of all data subjects whose data we communicate for the purpose of the application, evaluation, award and subsequent management of our grant, prizes and contracts (including financial transactions and audits). * ☒

The coordinator is only responsible for the information relating to their own organisation. Each applicant remains responsible for the information declared for their organisation. If the proposal is retained for EU funding, they will all be required to sign a declaration of honour.

False statements or incorrect information may lead to administrative sanctions under the EU Financial Regulation.

4 - Other questions

Ethics Issues Table

1. Human embryonic stem cells and human embryos		Page
Does this activity involve human embryonic stem cells (hESCs)?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does this activity involve the use of human embryos?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
2. Humans		Page
Does this activity involve human participants?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does this activity involve interventions (physical also including imaging technology, behavioural treatments, tracking and tracing etc.) on the study participants?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
3. Human cells / tissues		Page
Does this activity involve the use of human cells or tissues (not covered by section 1)?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
4. Personal data		Page
Does this activity involve processing of personal data?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does this activity involve further processing of previously collected personal data (including use of preexisting data sets or sources, merging existing data sets)?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Is it planned to export personal data from the EU to non-EU countries?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Is it planned to import personal data from non-EU countries into the EU or from a non-EU country to another non-EU country?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does this activity involve the processing of personal data related to criminal convictions or offences?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
5. Animals		Page
Does this activity involve animals?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
6. Non-EU countries		Page
Will some of the activities be carried out in non-EU countries?	<input checked="" type="radio"/> Yes <input type="radio"/> No	21
Ukraine, Moldova, United Kingdom		
In case non-EU countries are involved, do the activities undertaken in these countries raise potential ethics issues?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
It is planned to use local resources (e.g. animal and/or human tissue samples, genetic material, live animals, human remains, materials of historical value, endangered fauna or flora samples, etc.)?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Is it planned to import any material (other than data) from non-EU countries into the EU or from a non-EU country to another non-EU country? <i>For data imports, see section 4.</i>	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Is it planned to export any material (other than data) from the EU to non-EU countries? <i>For data exports, see section 4.</i>	<input type="radio"/> Yes <input checked="" type="radio"/> No

Ethics Self-Assessment

Ethical dimension of the objectives, methodology and likely impact	
<p>The project aims to support the development and certification of the European Digital Identity Wallet (EUDI Wallet) by analysing technical, organisational and regulatory requirements related to conformity assessment and trust frameworks. The activities consist of desk research, technical analysis, documentation review and coordination with professional stakeholders. The project does not involve vulnerable populations, children, clinical trials, or behavioural research.</p> <p>No personal data will be processed within the project. The activities do not require the collection, storage or analysis of information relating to identified or identifiable natural persons. Any testing or validation activities, if applicable, will rely exclusively on standards, documentation, and synthetic or test data. The expected impact of the project is positive, contributing to trust, security, interoperability and legal certainty within the EUDI Wallet ecosystem. No significant ethical risks, environmental harm, or adverse social impacts are anticipated.</p>

Compliance with ethical principles and relevant legislation	
<p>As no personal data are processed, the project does not raise data protection or privacy concerns under GDPR. The project fully respects EU ethical principles and fundamental rights, including privacy, non-discrimination and transparency.</p> <p>All activities are conducted in compliance with the eIDAS Regulation and the EU Digital Identity framework, including relevant implementing acts and standards related to EUDI Wallet certification. Ethical and legal compliance is ensured through internal project governance and continuous monitoring. Any activities performed outside the EU will comply with both local legislation and EU ethical and legal requirements and will be permissible in at least one EU Member State.</p>

Security issues table

1. EU Classified Information (EUCI) ²		Page
Does this activity involve information and/or materials requiring protection against unauthorised disclosure (EUCI)?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does this activity involve non-EU countries which need to have access to EUCI?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
2. Misuse		Page
Does this activity have the potential for misuse of results?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
3. Other Security Issues		Page
Does this activity involve information and/or materials subject to national security restrictions? If yes, please specify: (Maximum number of characters allowed: 1000)	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Are there any other security issues that should be taken into consideration? If yes, please specify: (Maximum number of characters allowed: 1000)	<input type="radio"/> Yes <input checked="" type="radio"/> No	

Security self-assessment

The project focuses on supporting the certification of the European Digital Identity Wallet (EUDI Wallet) through technical analysis, documentation review, standards assessment, and coordination with professional stakeholders. No operational EUDI Wallet systems are developed or accessed, and no personal data or sensitive information is processed.

Data risk: None. Only publicly available documentation, analytical outputs, and synthetic/test data are used. No personal, sensitive, or confidential user data is involved.

Operational risk: Low. The project does not operate live systems or services, so there is no risk of service disruption or security breach affecting real users.

Stakeholder risk: Low. Collaboration is limited to authorised project partners and conducted through standard, secure communication and project management tools.

Access to project documents and collaboration platforms is restricted to authorised personnel.

Secure storage, version control, and backup procedures are in place.

Security aspects of EUDI Wallet certification (e.g., security-by-design, risk management, resilience) are addressed at a conceptual and analytical level without exposing operational systems.

Any activities outside the EU comply with equivalent security standards and relevant EU legislation.

Overall assesment: The project's security risk is low. No personal data are processed, and no operational systems are involved. The project follows best-practice organisational and technical measures to protect project outputs and ensure security awareness among partners.

²According to the Commission Decision (EU, Euratom) 2015/444 of 13 March 2015 on the security rules for protecting EU classified information, "European Union classified information (EUCI) means any information or material designated by an EU security classification, the unauthorised disclosure of which could cause varying degrees of prejudice to the interests of the European Union or of one or more of the Member States".

³Classified background information is information that is already classified by a country and/or international organisation and/or the EU and is going to be used by the project. In this case, the project must have in advance the authorisation from the originator of the classified information, which is the entity (EU institution, EU Member State, third state or international organisation) under whose authority the classified information has been generated.

⁴EU classified foreground information is information (documents/deliverables/materials) planned to be generated by the project and that needs to be protected from unauthorised disclosure. The originator of the EUCI generated by the project is the European Commission.
